

Data Notes

- a** Please refer to Table B: Global Adult Tobacco Survey (GATS) (pp. 100–105), for details of the indicator presented here.
- b** Countries that did not include this question in their survey are not presented here. Please refer to Table C: Global Youth Tobacco Survey (GYTS) (pp. 106–123), for countries that were not presented here.
- c** § Indicator estimates based on less than 25 unweighted cases and have been suppressed. When data was suppressed, it was not presented here. Please refer to Table B: Global Adult Tobacco Survey (GATS) (pp. 100–105), for data not presented here.
- d** The GYTS protocol was revised in 2012; indicator definitions or protocol language may have changed after the GYTS protocol revision in 2012. Please refer to Table 2: What GYTS Measures and is Presented in this Report (pp. 21–22), for definition or language changes beginning in 2012.
- e** The GYTS protocol was revised in 2012; the revised indicator definition for Exposure to Secondhand Smoke in Public Places changed after the GYTS protocol revision in 2012 to specify, “enclosed public places”. Uganda and Zambia asked about enclosed public spaces before the GYTS protocol revision in 2012. Please refer to Table C: Global Youth Tobacco Survey (GYTS) (pp. 106–123), for details of the indicator presented here.
- f** The GYTS protocol was revised in 2012; the question for this indicator was introduced after the GYTS protocol revision in 2012. Please refer to Table 2: What GYTS Measures and is Presented in this Report (pp. 21–22), for indicators introduced beginning in 2012.
- g** § Indicator estimates based on less than 35 unweighted cases and have been suppressed. Please refer to Table C: Global Youth Tobacco Survey (GYTS) (pp. 106–123), for countries that were suppressed and not presented here.
- h** Treatment & Beyond is a short, web-based training that was developed to help health care providers around the globe learn more about the impact of tobacco on health and develop skills to help patients quit smoking. This free training is available through CDC TRAIN website at <https://www.train.org> Enter Course ID: 1065883 in the “Search TRAIN” box on the upper-right-hand side.
- i** Please refer to Table C: Global Youth Tobacco Survey (GYTS) (pp. 106–123), for details of the indicator presented here.
- j** The GYTS protocol was revised in 2012; the revised indicator definition for Awareness of Tobacco Use in the Media was introduced after the GYTS protocol revision in 2012. Data obtained that do not match the revised definition found in Table 2: What GYTS Measures and is Presented in this Report (pp. 21–22), are not presented here. Please refer to Table C: Global Youth Tobacco Survey (GYTS) (pp. 106–123), for countries that were not presented here.
- k** Please refer to Table 1: What GATS Measures and is Presented in this Report (p. 19), for GATS indicators and their descriptions.
- l** In 2003, Mauritius only asked about cigarette smoking; data presented for 2003 only includes cigarette smoking. In 2008 and 2016, Mauritius asked about tobacco use; data presented for 2008 and 2016 includes tobacco use.
